

Realise your Project Management Potential

(From normative thinking to transformative practice)

Level 5 Transformative

You innovate in order to improve / extend application areas.
 Your approach to problems, goals, plans and actions is holistic, creating new solution spaces.
 You adopt a Synthesis mindset, where the focus is on novel approaches to strategic planning and leadership of large complex problems.
 You inspire peers, teams and organisations in terms of strategy, implementation and people, fostering creativity.
 You motivate your team to achieve exceptional results, unlocking their value creation potential.
 You can truly merge academic learning and practical application to achieve relevant, comprehensive, optimal and enduring solutions.

Level 4 Competent

Your competency and ability to guide change are acknowledged among your subordinates, peers and superiors.
 You have established feedback and optimised the application of theory in the context of the problem.
 You have developed a holistic systems approach to problems, goals and plans.
 You have also demonstrated your capability in managing new situations and challenges beyond expectations.
 You are also able to extend your competence to manage large endeavours and systems with greater complexity.

Level 3 Involved

Your ability to put theoretical knowledge in context has matured.
 You demonstrate competency in a range of application fronts.
 You have established sound metrics for gauging system improvement.
 You are comfortable while dealing with new situations and are naturally able to revise goals, plans and actions to suit new challenges.

Level 2 Informed

You develop the ability to search & select theory, adjust it to the present context and optimise it to achieve goals.
 You are able to harness your past experience and professional judgment to serve as your guide to planning and action.
 You can identify knowable unknowns and lead efforts towards the results.

Level 1 Aware

You understand the theory of Project Management and are guided by it.
 You have some ability to factor in situational context and dynamics.
 You are receptive to learning.

From India's first to one of India's best

SABCONS was founded in 1995. Within five years of inception we became India's first Registered Education Provider, authorised by the Project Management Institute (PMI), USA. Today, we are one of the subcontinent's leading Project Management Training and Consulting organisations. Continuously expanding our knowledge base in tune with the latest global management trends, we define Project Management today and set standards for tomorrow.

Spearheaded by a team of experts in the field whose professional experience stretches well beyond the history of SABCONS, we have been part of the world economy.

through multiple cycles of highs and lows. In the hardest of times, we have seen, the one thing you cannot downsize is the need to train Project Managers who can deliver within slashed budgets, diminished manpower, tight schedules and an unpredictable economic climate. Superior performance in an unpredictable economic climate requires innovative thinking, sound technical skills, effective time and resource management as well as the confidence to withstand the pressure while motivating the team. Transformative training is the need of the hour, precisely what our programs are geared for.

Enhance your Project Management Maturity

SABCONS Consulting Services:

Continuous and expert mentoring is the cornerstone of a strong Project Management methodology, imperative for a successful organisation. Our consultants have spent 100 plus person years managing small and large projects for customers across the world.

Our consultancy packages address a 360° perspective of Project Management and include:

- Setting up of Project Management Office

- Setting up of Project Management Center of Excellence for Organisations
- Application transition and mobilisation
- On-going mentoring for Program / Project Managers
- Functional Consulting on Microsoft Project / Enterprise Project Management

Why Leading MNCs Recommend SABCONS

Beyond Information, Towards Transformation

Every SABCONS program is designed to inspire innovative thinking and insightful action. Our case study based learning customised to the needs of the participant organisation, helps participants respond effectively to the challenges on the job. We train managers for real life challenges, not just test paper problems.

Experienced Team of Expert Instructors

Our team of consultants brings decades of learning in Project Management, IT and Behaviour Psychology to the table with 15 years of training experience globally. Their professional experience as Project Managers increases the practical quotient of the course.

PMI (USA) Certified Training Programs

Our course content and methodology is approved by the

PMI. Participating in our programs is one of the simplest ways of earning PDUs, essential in maintaining the PMP® certification.

High Benefit/Cost Ratio

The qualitative increase in performance after the training more than justifies the training costs incurred by participating organisations or individuals. Affordably priced, we promise good value for money. Investment in SABCONS programs does not cost, it pays!

Trusted Organisation

Delivered 800 programs across the world, 50 five-day programs in 52 weeks (2006) and more than 100 programs for a single MNC - the figures speak volumes of the trust that corporate organisations and individual project practitioners have in SABCONS.

Train to Gain

SABCONS Transformational Training Programs:

Choose from a comprehensive list of training programs that enhance technical, theoretical, behavioural and organisational skills essential for Project Managers:

S-ProjectPro (PMP®)

Your passport to Project Management Proficiency

According to our past participants, 99% of them clear the PMP® test in their first attempt. The highly interactive workshop exposes participants to Best Global Project Management Practices and motivates them to go beyond the given, think innovatively and lead confidently.

S-ProjectGrad (CAPM®)

Get set for a career in Project Management

Prepares executives for CAPM® Certification Examination and puts them on the right track to a career in Project Management.

S-GlobalPro (Exclusively for IT)

Project Management in Practice, Worldwide

Applying best practices, tools, techniques and Project Management concepts for managing projects beyond borders for competent and effective Project Management in the IT industry.

S-ManPro (Exclusively for IT)

Managing Projects- From Idea to Execution

Helping managers in the IT industry understand a project in its entirety (its knowledge areas and processes) and appreciate the art and science of Project Management.

S-InfraPro

Beyond traditional Project Management

(Exclusively for Infrastructure / Construction and Government)

An intensive 3-day workshop that empowers project practitioners to manage stakeholder expectations, prevent time & cost overruns, mitigate risks and effectively deal with vendors.

S-VenMan

Making Vendors Deliver

(Exclusively for Infrastructure / Construction and Government)

A workshop on how to effectively manage vendors and help them help you.

S-WinTeam

Together WE Triumph

Helping individuals become winning team players.

S-CollabPro

Key to Collective Capability

A motivational workshop to overcome conflict and boost collaborative teamwork.

S-MSPPro (MS Project)

MS Project for the Smart PM

Provides the participants with relevant Project Management concepts and best practices blended with MS Project so that they derive a higher value in planning, monitoring and control of their projects.

S-EnterPro

Manage multiple projects effectively

A 3-day program that blends Project Management concepts with Enterprise Project Management.

S-ProOffice

Framework for a Successful PMO

A pan-industry workshop in setting up a successful Project Management Office.

SABCONS Customised

To meet the unique needs of your organisation, our team is geared to develop custom-made programs in consultation with you.
