

1st Indian R.E.P

Expert's Speak

M. R. Sriprasad, PMP
Founder Director & CEO

Changing times have changed the typical responsibilities of young professionals today. Strong technical know how must be complemented by sound project management skills. An ability to go beyond theoretical knowledge garnered in classrooms and apply it in a live scenario provides fresh professionals an edge over their peers. Individual heroes have given way to teamwork, so graduate entrants into the corporate arena are expected to participate in, manage and lead entire project teams. Companies are actively seeking Individuals who have an exposure to global standards; hence participation in a international network of vibrant project management professionals is strongly recommended.

Survival of the Fittest!

The demands of the professional environment are fluid, changing dynamically and becoming aggressive day-by-day. The graduate youth today has several challenges to face due to various employment situations. Despite performing quite well in the academics and securing high grades, getting a decent employment with a good organization is not quite certain. Among others, a few recent factors contributing to tougher hiring situations are:

- Aggressive competitive situation with the best of the graduates vying for a few top job openings.
- Stringent hiring norms adopted by companies.
- A noticeable gap in competencies as desired by hiring organizations.
- Poor interview turnover ratios.

It is almost leading to a situation popularly known as *"Survival of the Fittest"*. As India rises to global standards by producing the best in class professional executives comparable

globally, the fallout is higher and stringent expectations from entrant graduates. If we also add the other dynamics of the environment and the market like:

- More Multi-National Companies setting shop in India.
- Many Indian companies, including Govt. and Private Sector organizations continuously raising the bar on project execution

methods, standards to global levels.

- Resulting in higher demands from working professionals to deliver at global standards. ... then the situation gets even more compounded. For the fresh graduates the tough entry situation does not end with successful entry into professional life but in a way the beginning of a long and continuous journey of competitive environment where one has to be the fittest to survive.

governments, organizations, academia and industries.

SABCONS Project Management Consultants

SABCONS has been in the forefront of enabling project practitioners in the IT and other industries since inception in 1995. As India’s first Registered Education Provider authorized by Project Management Institute, USA, to deliver certification courses, its origin is firmly rooted in the global best practices in project management. Over the years SABCONS has been constantly adding value to project management practitioners through improvised course

modules and case study exercises aimed at igniting the participants’ problem solving capabilities and applying them to live situations in a global environment.

More than 800 programs delivered worldwide, 50 five day programs in 52 weeks (2006), more than 100 programs for a single MNC, runner up award for paper presentation at the first PMI, India Conference speaks volumes of the credibility and trust the corporate organizations and individual project practitioners have in SABCONS.
